

“ The new evaporative cooling and humidification system has exceeded our expectations. We are able to leave the system on 24/7/365, and it keeps our facilities properly humidified without our intervention! And with the electrical savings, it paid for itself in short order. ”

Arthur Ryan,
Facilities Manager
Benchmark Electronics

Condair's HP Series High Pressure Humidification

Tried, trusted, and true in over
5,000 locations.

Overview

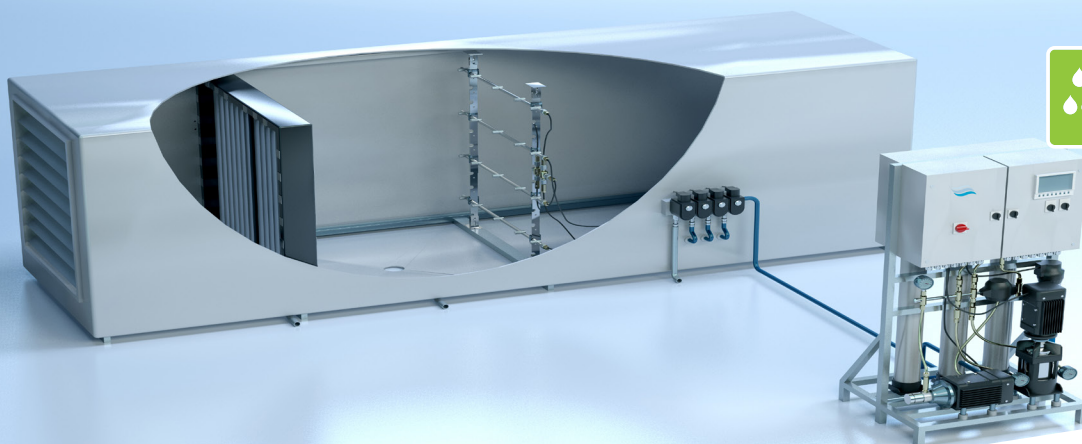

Nortec known globally as Condair is the world leader in high-pressure humidification. The history of high-pressure within Condair started in 1988, it then spread quickly to the US in 1993. Globally we have over 5,000 installations, 800 in North America. Projects ranging from standard installs to complex customized solutions. Art buildings to data centers, high tech chip fabs to paint booths, and food storage to greenhouses. Our breadth, scope and experience in high-pressure technology and projects is unrivaled.

Experts in YOUR industry trust the Nortec HP Series to increase their profits - so should you. Experts such as:

- Tacoma Art Museum
- Rock & Roll Hall of Fame
- Lockheed Martin
- Harley Davidson
- Texas Instruments
- Keurig
- Boeing
- GE Health
- Honeywell
- Canadian Broadcasting Corporation (CBC)
- Tufts University - Timko Lab
- Facebook
- ULINE
- Duke University Greenhouse
- JABIL - Flextronics
- 3M Corporation
- Gentex

HP
SERIES

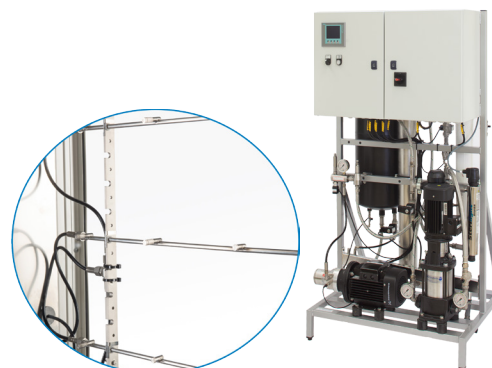

Top 10 Nortec High-Pressure Advantages:

1. Ultra-purified water and micro-fine atomization (10 – 20 microns).
2. 100% hygienic adhering to HACCP, ISO 22000 and DGUV.
3. Only the best parts: Danfoss water lubricated pump (no oil) longer lifetime - up to 10 times less maintenance than the competition! 2 year pump warranty or 8000 hours!
4. Direct coupled Grundfos Motor (no belts) less maintenance.
5. Completely customized solutions for your needs. Our engineers analyze the design and provide you the very best solution tailored for you electrically, hygienically and mechanically.
6. Options galore: on-board DI water production, on-board RO water treatment, UV light sterilization, disinfectant dosing module, zone add-ons, up to 31 to 1 turn down ratio, +/- 2% RH accuracy.
7. True n+1 redundancy or redundant pump stations available.
8. All stainless components and food grade materials.
9. Nortec's very own field techs can provide turn-key install, start-up, commissioning, preventative maintenance and bacteria testing.
10. Bacteria testing using EPA approved Bactiquant hygiene testing – results in 30 minutes or less!

PLUS... All units come with a 2 year limited warranty.

Other Evaporative Museum Clients Include:

- Anderson Art Gallery (ME)
- Milwaukee Public Museum (CA+W)
- National Museum of China (PH)
- San Francisco Museum of Modern Art (ME)
- Shanghai Science & Technology Museum (DL)
- U-Turm (DL)
- Limburgs Museum (HP)
- Kunsthalle (DL)
- Villa Hugel (DL)
- Kunsthalle Mannheim (DL)
- Rolex Learning Center (DL)

Condair's HP Series - Reliability, hygiene and complete customized control.

We are Condair, the leading humidifier manufacturer in the world for industrial and commercial humidification and evaporative cooling solutions.
