Condair’s Adiabatic Advantage

Condair is the leading manufacturer in the world for industrial and commercial humidification and evaporative cooling solution.

Condair’s HP Series High Pressure In-Duct

- 8000 hour life water lubricated pump
- True n+1 redundancy (or more)
- All stainless steel components
- Large custom loads and designs to fit many air handlers with just one pump station
- Very low energy consumption

Condair’s ME Series Media Evaporative Cooling

- Unique media
- Framed media cassettes
- Staged controls
- Submerged UV light and automatic line flush
- Cost effective cooling
Condair’s DL Series Dual Hybrid Humidification

- The only hybrid adiabatic humidifier in the world
- Unique ceramic tiles for no maintenance, hygiene and precision
- Patented Hygiene Plus system (Ag+)
- Smallest In-Duct footprint
- Very low energy consumption

Condair’s ML Series Direct Room High Pressure Humidification

- 1000 psi nozzle with anti-drip tip
- Custom solutions for any job
- Adaptable to many heights
- Pure water with zero trace minerals
- Large loads with multiple zones
- Qualifies for energy rebates

Condair’s US Series Ultrasonic Humidification

- In-Space Ultrasonic humidification
- +/- 1% RH tolerance
- Adiabatic free cooling and energy savings
- Unique blower pack
- Cost efficient

Experts in YOUR industry trust Condair to increase their profits – so should you. Experts such as...
