

DL-Series

Two adiabatic humidification methods intelligently combined

Humidification and Evaporative Cooling

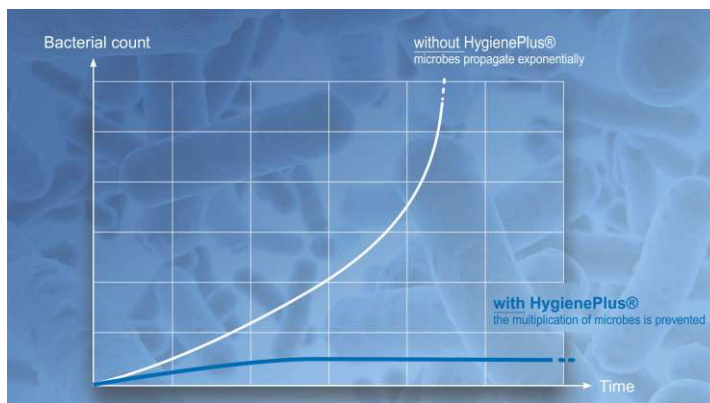

The Condair DL-Series Humidifier / Cooler

Hybrid adiabatic system that combines low pressure nozzles with evaporative media to create the most hygienic adiabatic system available

The innovative DL-Series features:

- Low pressure nozzle system with ceramic evaporative media downstream results in high evaporation efficiency
- Unique ceramic media does not need to be replaced
- Installation lengths as low as 23.5"
- Hygiene Plus system ensures optimal hygienic operation
- Extremely low energy consumption
- Up to 15 stage control, $\pm 2\%$ control accuracy

Hygiene through effective germ neutralization using the Hygiene Plus system

As the leading manufacturer of commercial/industrial humidification systems for more than 70 years, Condair has the technology and application expertise to meet the needs of any application.

Contact us today and ensure you have the best humidification solution for your application.
