

## Condair RH Classic Small Electrode Humidifier

Humidification, Dehumidification and  
Evaporative Cooling

# The importance of having the Condair RH Classic humidifier in your building

Condair, a world leader in commercial humidification, has designed a sleek and easy to maintain residential humidifier. The Condair RH Classic humidifier features the same state-of-the-art electronic technology as our commercial units, delivering accurate and dependable humidification to your home or light commercial applications.

## Comfort and health

Studies show correct interior humidity levels minimize the spread of bacteria and viruses avoiding the problems associated with dry throats and nasal passages during the winter months while also keeping your skin supple.

The Condair RH Classic humidifiers remove calcium and minerals from the water used so only clean, pure steam is added to indoor air, making the air in your home healthier to breathe.

## Protect valuable furnishings, instruments and art

Wood and upholstered furniture, drapes, carpets and other fabrics around your home will all deteriorate more rapidly if they get too dry or too wet. They need correct humidity to maintain their shape and strength. The same goes for fine art, antiques and expensive musical instruments, especially pianos, violins and related strings and woodwinds.

## Reduce static electricity

Prevent those annoying static electricity shocks in the winter time by keeping your house humidified using the RH Classic.

- Pure, clean, sterile steam humidification
- Easy maintenance using disposable cylinder
- QDV model is the quietest residential steam humidifier in the market
- Auto-adaptive technology adapts to changing water conditions
- Automatic fill and drain cycles

All scale and mineral sediment is deposited into the cylinders which are easily changed and discarded. Cylinder replacement requires no special tools and can be done in a few minutes. A light on the unit indicates when the cylinder needs replacement.

Installation requires only a potable water supply, water drainage and 110-240V power. Units are wall mounted for direct room or duct steam distribution.

SPECIFICATIONS	RH CLASSIC DUCT	RH CLASSIC SPACE
Wiring Connection	Hardwired	Hardwired
Rated Current	15.9 A	12.7 A
Maximum Ext. Protection	20 A	20 A
Voltage/Phase	110-240/1	110-240/1
Capacity: lbs/hr (kg/hr)	5.0-10.0 (2.3-4.6)	4.0-8.0 (1.8-3.6)
Consumption: gal/day (l/day)	14.5-29.0 (55.1-110.2)	11.6-23.2 (44.1-88.2)
Dimensions: in (cm)	21.4 (54.4) H x 11.4 (29.0) W x 6.9 (17.4) D	
Weight: lbs (kg)	21 (9.5)	22 (10)
Controls	On/off or modulating	
Steam Distribution	Duct mounted distributor or remote blower	Built-in blower
