Your humidifier just got a whole lot smarter.

WHOLE-HOME STEAM HUMIDIFIER FOR FORCED AIR SYSTEMS

Health and comfort at your fingertips.

Condair HumiLife

WHOLE-HOME STEAM Humidifier
for Forced Air Systems

Why Condair?
Simple. It's the brand professionals have been trusting for over 70 years.

70 YEAR WARRANTY

Be the pioneer of humidification solutions and now the global market leader. Every Condair HumiLife Whole-Home Steam Humidifier is easily serviceable, dependable and built to last, engineered in Switzerland, proudly made in North America.

Condair HumiLife

Remote operation at your fingertips
Your smart phone is your hub for everything to do with your humidifier. The Condair HumiLife Whole-Home Humidifier is well connected allowing you to check operation, settings, ready to go and to receive humidity, monitor your humidifier's performance, receive maintenance notifications and access Customer Support directly from your smart phone.

Simple and flexible installation
The lightweight design allows for direct duct work installation and requires a hole and a condenser supply. This will work with all common configurations - making it a flexible solution.

Efficient operation
Condair's patented algorithm saves water, power and energy and delivers the exact amount of moisture you need. Operation is a breeze by setting the automatic care of humidity, and it saves your heating budget.

Little to no maintenance
Simply remove the filter every year and you're ready for the next heating season. Our app will alert you when it's time.

Is this the right humidifier for your home?

Precise humidity control is the key to your health.

Humidified air lowers viral transmission, inactivates germs and strengthens your immune system.

Pure hygienic steam allows you to breathe with ease.
