## What makes Condair's Help Software so easy to use:

- Online product catalog
- Wizard-based product selection to build a complete humidification system
- Specification and schedule tools with pdf or excel export
- Intuitive graphical load sizing system
- Dynamically generated humidifier dimensional drawings
- Layout tools
- Visual schematics
- Application resources and product recommendation by application
- Cloud saved quotes
- Built-in representative finder to connect you with your local Condair representative for pricing.

## Humidification Projects

Condair Help is a user-friendly program that is designed to streamline and simplify the tasks associated with sizing, selecting, and working with humidification and dehumidification systems. Help combines an intuitive wizard based approach, a powerful calculation system, schedule and specification generation, and access to your local representatives in one convenient package serving all of your humidification needs.

## Easy Access Anywhere, Anytime

Help is an internet accessed software, meaning that no downloads or specialty equipment is required to use it. This ultimately allows you access

to your projects at anytime and anywhere as long as there is internet connection. Be it in office, on site, or mid-travel, you will have reliable access to Help.

## Custom Document Generator

Submittals, schematics and other documents are easily created through the software's integrated document center. Here you may export required project documents in a variety of formats, allowing for convenient information generation.
